Description

EN

The Nimbus Commuter 11 (C11) X-Edition is a high-performance, all-weather boat with luxurious detailing and exceptional capability. Fitted with twin Mercury Verado V10-400 outboards in Cold Fusion White and the Mercury Joystick upgrade, the C11 offers smooth power, intuitive handling, and responsive performance. This X-Edition model features exclusive upholstery, graphics, and detailing throughout, making it as stylish as it is functional. Designed for extended voyages, weekend getaways, or the daily run, the C11 combines speed, comfort, and Scandinavian design in one remarkable package. This 2026 model Nimbus Commuter 11 is on order with the factory but changes can still be made to the specification - call us to find out about our offers. Note - library photos may not reflect specification of boat.

Deck: Finished in eco-teak decking with white caulking, the C11's deck is both elegant and hardwearing. The aft and foredeck are fitted with dark grey outdoor cushions, including an adjustable backrest and covers, while twin aft deck tables and a foredeck table fitting make alfresco dining easy. Roof racks (60kg capacity), and a deep bathing platform offer both utility and safety. The bow includes a Quick DP2P-1000 windlass with 16kg anchor and 40m of 8mm chain, controlled from the deck. X-Edition mooring gear and underwater blue lights round out the premium deck experience. Prepared and antifouled and complete with 3 piece name set, shore power lead, Navionics chart and gas cylinder - ready to go!

Cabin: Inside, the C11 boasts a Nordic oak interior with full X-Edition treatment - including dark grey cabin cushions, matching saloon suspension seat cushions, and premium carpets throughout. Additional portlights in the cabins with curtains. Forward cabin with large double berth and plenty of stroage. Additional bed arrangement in the wheelhouse - all in a clean, modern design. The galley is well equipped with a 65L fridge, sink, and gas cooktop (LPG), while Nimbus crockery and cutlery are included as standard.

Cockpit: The helm is fitted with twin Simrad NSX 12" plotters and a Simrad xSonic SS60 thru-hull sonar transducer for confident navigation in all conditions. A Simrad RS40 VHF with AIS receiver and antenna provides reliable communication and situational awareness. The dashboard and steering wheel are wrapped in dark grey suede, part of the X-Edition detailing, and supported by the intuitive Mercury joystick control system with autopilot and Skyhook functionality. Wheelhouse with electric glass roof + sunblinds, vast windows + curtains + high ceilings, doors on port and starboard sides + aft door - for easy movement around the boat and lots of natural light. C-shape seating to starboard side aft with folding table - converts to additional berth - for great use of space.

Electronics: The C11 includes a Chargemaster 12/50A shore power system with 230V outlets and a 25m cable. A high-end JL Audio hifi package delivers immersive sound through six premium speakers across the cockpit, aft deck, and foredeck, with a powerful amplifier and subwoofer. The Nimbus Connect system enables smart remote management of onboard systems.

Machinery: With twin Mercury Verado V10-400 XXL outboards (Cold Fusion White), this C11 delivers powerful, controlled cruising with Mercury joystick control, VesselView 403, Active Trim, and additional upgrades including VesselView Mobile and First Mate with extra fob. Handling is optimised by the Zipwake 400E dynamic trim control system and a Quick bow thruster. A black-water overboard discharge system is also fitted for extended trips. For comfort in all seasons, the Isotherm 40L diesel heater, defroster, and hot water system provide warmth and utility throughout. Fuel capacity: 850L. Water capacity: 135L. CE Category B10 / C12.
