Description

EN

First commissioned in 2009, this is a great example of the Seahog Alaska 630 fast day fishing boat. Her huge cockpit, relative to the boats overall size, creates the feel of a much bigger boat and her cuddy is extremely spacious and generally very accommodating and able to be fully enclosed. This boat is easy to handle, launch, retrieve and tow and her Mariner 80 four stroke engine will push her along to reach a top speed of c30 knots, and she will cruise comfortably in the 16 to 22 knot range. A beamy and stable boat on the water. The vendor will consider part exchange - up to a certain percentage of the sale value. The photographed trailer is available as a separate negotiation - an almost-new double wheel 2000kg trailer that is yet to see the water! A much-loved boat that has received a raft of upgrades.

Deck: Large aft cockpit with deep gunnels. New electric windlass with helm control, Delta-type anchor, rope and chain in self draining locker, heavy duty stainless steel mooring cleats to bow and rear quarters, additional auxiliary cleats, fender eyes, raised pulpits, stainless steel swim ladder on transom, 2 stainless rod holders, auxiliary engine bracket, large working light to rear cockpit and twin searchlights to cuddy roof, rod holders, stainless steel cup holders, large forward access hatch in cuddy to foredeck, new steering system in 2022. 2 x automatic bilge pumps, 1 x manual bilge pump. 18mm marine ply deck with fibre glassed over and gel coated with recently re-ant slipped.

Cabin: N/A

Cockpit: New 360 degree captain chairs with enclosed storage under, forward seating in bow area, stainless steel grab handles, extended new canopy enclosure in 4 parts giving great flexibility (almost new) and with zipped access to rear, painted anti slip flooring, fire extinguisher.

Electronics: Recently re-wired. Full navigation lights, dual front 360 degrees searchlights, rear cockpit working light, full navigation lights, Furuno 1623 radar with radome and radar reflector, Garmin GPSMap550s, Standard Horizon CP500 GPS Chart, New VHF radio. Tachometer, Trim gauge and compass.

Machinery: Mariner 80hp 4-stroke engine with power trim and tilt and Hydraulic steering. 1 x 25L fuel tank, auxiliary engine bracket

Trailer: Trailer available as separate negotiation. Mecanorem 2000kgs double wheel braked bunk trailer with AL-KO hitch and running gear, winch and winch post, jockey wheel - very little use (estimated at 200 miles maximum), and never submerged.
